**Don Rechlin** to me

Aug 16

If you legislate in a anti corruption board with teeth ,people wouldn't see you all as crooks. Your having budgets on time had to be mandated in , so don't try to sell us Bs about on time budgets. OK some of the raises didn't materialize for you in past few years. I haven't seen one in 10 years,Xerox employees haven't seen one in 6 or 7, as a contract employee I am sweating keeping any future years at the same pay.

Show us some improved infrastructure,some meaningful tax reform, some ghost house legislation,to dissolve the5 year wait for properties to be resolved.

Then come back and ask for a reasonable amount, now I know you are mostly lawyers and will get what you want one way or another, but you better start rebuilding the bridges and make the roads better for longer durations, or we may have to move out because you forced retirees out!
